ABOUT TALLWATER

Lynn Janicki and Kate Johnson, twin sisters who stand 6'2" and 6'3" and love clothes as much as they love being tall, have worked endless hours over the last two years to create a line of high-quality designer jeans specifically for tall women. TallWater Jeans come in sizes 6-14, are available in both 37-inch and 38-inch inseams, and are manufactured in California. TallWater Jeans' first line launches September, 2010. Available exclusively (for now) at TallWaterJeans.com.
